SKUSTACK®
by SellerCloud

What is Skustack?

SellerCloud understands how important it is to have an intuitive and effective WMS that can handle all warehouse related tasks.

Our team has spent thousands of hours analyzing use cases and scenarios that need to be taken into consideration to deliver a solution that is truly a cut above the rest. Skustack is deceptively simple and offers scalability and performance that can meet the needs of the largest and smallest warehouses alike.

Skustack's key features:

- Warehouse transfers
- Bin transfers
- Custom picklists
- Picking FBA inbound shipments
- Receiving RMAs
- Cycle Counting
- Tracking inventory expiration dates

- Receiving purchase orders
- Kit assemblies
- Serial number tracking
- Update inventory
- Lookup products and print labels
- Add product warehouse images
- One way inventory transfers

What does it cost?

The full Skustack solution costs $250 per month and can address the needs of the most demanding warehouse scenarios. Using it requires a SellerCloud subcription.

While we only guarantee compatibility with hardware provided by us, you can try Skustack with your current hardware before making any further investment.

SKUStack® BASIC

SKUSTACK Basic is designed to meet the needs of smaller warehouses who do not use bins to organize their stock or larger warehouses with very few SKUs. While it is effective for performing inventory counts and adjustments it cannot be used to do things like picking items for orders or receiving POs.

FREE with SellerCloud subscription.

Skustack Basic's key features

- Make inventory adjustments
- Lookup products and print labels
- Add product warehouse images
- One way inventory transfers

What does it cost?

At only $20 per month SKUSTACK Basic is an affordable and easy way to improve both efficiency and productivity in your warehouse. The lite feature set is broad enough to meet the needs of small to midsize warehouses or even larger warehouses with simple configurations.
