

# Payments made easy.

## Looking for a fast and flexible way to collect payments?

SellerCloud's new and convenient Waytopay product is the perfect solution to easily obtain order payments – safely and securely. The latest addition to the powerful suite of SellerCloud solutions, Waytopay gives your customers a “way to pay” that is simple and independent of their shopping cart. All that's required of them is their order number, an email address and a credit card – no other personal information is needed.

### Features:

- Ideal way to secure payment for local store/wholesale orders
- Simple sign-up using existing SellerCloud credentials
- Enable / disable per each of your companies
- Easily configure supported payment methods
- Customized payment pages (company logo) for a branded customer experience

### What does it cost?

Waytopay is **free** with a SellerCloud subscription.

# How does Waytopay work?

## Three easy steps:

1. Generate a unique payment URL for the order.
2. Email the payment URL to the customer.
3. The customer can use the link to access their order details and make payments at their convenience. The URL is secure and does not require them to create an account.
